Good morning, Jeff.

Can you tell me when you might have these ready in native format as required by the CPRA? It's especially egregious that you all exported these emails as PDFs since you used Outlook to do so. As far as I know, it's easier to export MSG files out of Outlook than to make PDFs. It's certainly not harder, so it appears that you all did extra work to produce records in a noncompliant format.

Thanks for your prompt attention to this important matter.

Thanks, Jeff.

I really need these in a native email format as I mentioned in my original request. It's not possible to search PDFs effectively in batches.

Thanks again,
